

Turn up the heat on the U.S. Government – Protest Sunday November 4th for Julian Assange!

Classconscious.org is placing another call-out for workers and youth to rally to defend Julian Assange and turn up the heat on the U.S. Government on Sunday November 4th. So far protests have been called for Sunday 4th of November in 9 cities: Auckland, Canberra, Dublin, Kathmandu, Ljubljana, Melbourne, Philadelphia, Taipei, Toronto,! A protest in also be organised outside the Embassy in London by the [WISE Up Action group on November 4th](#). *(Details for each protest can be found at the bottom of the article).*

We are excited that people in Taipei are joining these global protests for Assange for the first time. Organisers are holding a protest/press conference outside the American Institute of Taiwan which operates as a defacto Embassy. Representatives of the Tree Party have endorsed this protest .

Once again, the focus of these protests is the U.S. Government – headed by President Donald Trump – which is ultimately responsible for the ongoing persecution of Julian Assange. Just as his predecessor Obama, before him, the Trump government is pursuing its relentless efforts to arrest and extradite Assange – to put him on trial for Espionage. The U.S. Empire is determined that Assange and Wikileaks' ongoing revelations about their war crimes, surveillance and political corruption be stopped forever and an example made of Julian Assange to other whistleblowers and publishers.

As the [recent moves to strip Assange of his Ecuadorian](#)

[citizenship](#) show, the high-level conspiracy against him continues. Efforts are also being made to [potentially indict Assange as part of the Mueller investigation](#), centring on the baseless allegations that he worked with the Russians to help elect Trump.

It is envisioned that the November 4th global actions will be part of rolling global days of action held at regular intervals. November 4th also coincides with the next Unity4J Day of action.

There are also standing plans for [Emergency protests if Julian Assange is evicted from the Embassy](#).

How to stay informed and get involved:

1) Join the [Free Julian Assange Events Facebook page](#)

1) Join an [Action 4 Assange Facebook group](#).

2) Sign up for [Email updates](#) from classconscious. (Note: we also send out our new articles on other topics from our website in addition to campaign info).

3) Email classconscious.org at classconsciouswebsite@gmail.com if you want to start organising a protest in your city or country on November 4th. We can assist you with organising and publicising your protest.

Resources are available such as the awesome 'Bean' print-quality pdfs for Julian Assange banners, placards, leaflets, stickers, badges, etc made by Somerset Bean which can be [obtained from his website](#).

We are also encouraging people to make banners and signs using the theme of 'blowing the whistle' on the U.S. Empire's persecution of Assange by incorporating the image of whistles. You can also blow real whistles at your demonstration!

Only a massive mobilisation of the youth and international working-class will generate the political force necessary to prevent Julian disappearing into an American prison for life or worse. The fight for Julian's freedom is inseparable from

the fight to defend democratic rights and the fight against censorship and against imperialist war.

PRESS RELEASE FROM TAIPEI

Join the world in Taipei where we rally on Sunday November 4 (2 pm to 4 pm) at the American Institute in Taiwan (AIT, No. 7, Lane 134, Section 3, Xinyi Road near Jianguo) to join global coordinated protests in defense of Julian Assange and Wikileaks' freedom of publication. Police permission has been arranged by Tree Party of Taiwan; this is basically a press conference in place on the street with AIT as the photo backdrop for the group.

For six years Julian Assange has been trapped inside the Ecuador Embassy in London. If he steps out he will be whisked off to the USA where a Grand Jury will likely sentence him to serve life in prison on espionage charges – for publishing beginning 2010 the material leaked by Bradley (Chelsea) Manning when she was a military intelligence analyst in Iraq. Manning was sentenced to 35 years, but pardoned by Obama in the last weeks of his administration.

The U.S. has organized a conspiracy involving the British, Ecuadorian and Australian Governments to revoke Assange's asylum so he can be extradited to the U.S. It has promised a big financial contribution to Ecuador for this. Assange's courageous journalism with Wikileaks however has exposed U.S. war crimes, surveillance, corporate malfeasance, electoral corruption and diplomatic machinations. Donald Trump, like Obama before him, has continued the relentless pursuit of Julian Assange which has now continued for eight years. The most glaring U.S. atrocity committed in Iraq revealed by Wikileaks can be found online as the 17-min film "Collateral Murder", the video record of an Apache helicopter attacking Reuters newsmen, civilians, and children below on a Bagdad street in 2007, with perhaps 20 killed.

We demand that the U.S. permit Julian Assange to leave the Ecuadorian Embassy in London and relocate to a country of his choice without facing extradition to the U.S.
