

Actions for Assange pages on Facebook.

Online infrastructure is necessary for groups to be able to organise protests in different countries to sustain the campaign to Free Julian Assange now that he is in prison in the U.K.

One way of doing this is to form of specific Facebook Action groups for specific regions including: 'Aus Action 4 Assange!', 'Canadian Action 4 Assange!', 'US Action 4 Assange!', 'German Action 4 Assange!' and 'Nepalese 4 Assange' etc..

These ongoing national or regional Facebook Action Groups will help with organising, urgent communications (esp. when JA is evicted), attracting new supporters, promotion of events, creating community and laying the online infrastructure and global grassroots networks for ongoing, global actions to free Julian Assange!

Whilst there is a plethora of Wikileaks and Assange related Facebook pages and groups in existence, these new groups' focus will be exclusively on the organisation of solidarity actions designed to build an international movement of the youth and working class in defence of Julian Assange. We intend for them to remain focused on action planning.

An overarching Facebook page to promote actions for Assange also exists entitled [Free Julian Assange Events](#).

If you are interested in setting up your own Facebook group om ClassConscious@protonmail.com
